

K-101

Aluminum Flake

Transmet Aluminum Flakes are rapidly solidified in proprietary melt spinning process. Flakes are uniform in size and shape. 99.92% pure Aluminum.

Packaging:
20 lb (9.1 kg) bag

Shape	Rectangular Flake
Length	.02" (600 microns)
Width	.04" (1000 microns)
Thickness	.001" (25 microns)
Repose Angle	44 degrees
Density	20 pound / cubic foot
